### 787 Lamar State College - Orange

---

#### ADMINISTRATOR'S STATEMENT

Situated on the banks of the Sabine River in Orange, Texas, Lamar State College Orange (LSCO) has provided educational opportunities to the citizens of Southeast Texas for over 55 years. From humble beginnings in an abandoned elementary school building, LSCO progressed into a dynamic institution that serves around approximately 3,839 credit students annually for the 2023-2024 academic year with quality instruction and personal attention.

LSCO is a two-year, lower division institution within the Texas State University System. As an exemplary place of learning, LSCO offers both transfer and technical programs of instruction. The academic curriculum is designed for students who plan to transfer to a four-year college or university in pursuit of a bachelor's degree. Students who want immediate entry into the job market can choose from over 20 different technical programs that are designed to meet the needs of the local workforce, including recognized programs in Nursing, Court Reporting, Dental Assisting, Electromechanical Technology, Logistics Management, Industrial Technology, and Information Technology. The College also offers an array of non-credit learning opportunities that range from hobby and personal enrichment courses to customized workforce training. The workforce offerings meet specific training needs identified by local industry partners, including, but not limited to Commercial Driver License (CDL) Class A and Class B, Forklift Operator, Clinical Nurse Aide, and Information Technology Support and Automation.

LSCO understands that the most critical part of our mission focuses on transforming the lives of those who seek educational opportunities at our institution. We also recognize that we must have a partner in the State of Texas in order to be effective in serving our students and our communities with the level of excellence that they deserve. The College is a strong contributor towards the goals of the Texas Higher Education Coordinating Board's "Building a Talent Strong Texas" plan and is dedicated to providing programs and support services that will assist more Texans in achieving their dream of earning a college certificate or degree needed to secure a fulfilling and prosperous career. We are further developing our dual enrolled relationships with the five school districts in our service area and others throughout our region. New and innovative strategies to attract technical students and prepare them for career entry or more advanced college workforce and applied training upon high school graduation are being designed and refined at Lamar State College Orange. We are forging the critical link between post-secondary education and workforce readiness during Texas' unprecedented economic and entrepreneurial climate.

During a time when the inflation rate and economic uncertainty remains high, the College offers a beacon of hope and encouragement to our students by providing free mental health services and a food pantry, expanded apprenticeship and internship "earn while you learn" opportunities, and affordable tuition and fees that can further be reduced via federal aid or institutional scholarships. These resources encourage our students to persevere through challenges, resulting in the College exceeding prior biennium contact hours and doubling our headcount of our technical and workforce programs.

Over the past several years, LSCO has experienced significant positive changes. Some of the highlights include:

- Received approval from the Texas Board of Nursing to offer a stand-alone Associate Degree Registered Nursing program.
- Increased fall 2023 enrollment by more than 12% over the College's previous enrollment record set in fall 2011.
- Awarded 20% more degrees and certificates during the 2022-2023 academic year than in the 2021-2022 academic year.
- Partnered with the Golden Triangle Federation of Advanced Manufacturing (FAME) Chapter whose focus is to allow students to achieve a specialized education in the skills needed for rapidly evolving industry positions while earning two-year associate degrees with potentially zero student-loan debt.
- Received a donation of \$1.3 Million to facilitate the purchase of a Polaris Hands-on-Training 3 Glycol Distillation Trainer that will provide relevant training scenarios and opportunities for Industrial Systems students.
- Reduced tuition, fees, and book charges 47% in the last 4 years.
- Increased workforce educational program enrollments by 200%.

### 787 Lamar State College - Orange

---

- Acquired a site location in Lumberton, TX to provide access to postsecondary education to residents of Hardin County.
- Acquired a site location in Livingston, TX to provide access to postsecondary education in rural East Texas.
- Invested \$2.5 million in renovations for a Mechatronics Center.
- Partnered with a global leader in supplying tooling for the plastics extrusion industry for our new Electromechanical Technology Program.
- Received \$3 million in Texas Reskilling and Upskilling through Education (TRUE) and Governor's Emergency Education Relief (GEER) funding to purchase program equipment, support faculty enrichment, and provide mental health and student success support.
- Unveiled Gatemouth Plaza named in honor of Gatemouth Brown, a native son of Orange and world-renown, Grammy award-winning musician. Plaza will become the entrance to our new academic building made possible by the 87th Legislative Session.
- Introduced a new 8-week course model designed to improve student success by decreasing burnout, allows more access to financial aid, and allows students to graduate and enter the workforce sooner.
- Implemented a low-cost all-inclusive textbook program that makes access to instructional resources more affordable and available on the first day of classes.

LSCO is grateful for the continued support from the Texas Legislature for formula funding including the HB8 initiative administered through the THECB. The Legislature's commitment to operational and capital funding is key to providing low cost, high quality educational opportunities. Given our unique structure in Texas as a 2-year college, LSCO asked and received an increase in our formula rate to reduce our reliance on tuition and bring us more in line with our Community College peers. The reduction in tuition and fees made possible by your continued support will continue to be impactful for our region and statewide. Given the state of our economy, your investment in us is even more important, so we thank you for believing in us. The College is also nearing completion of the construction of our Capital Construction Assistance Project provided by the 87th Legislative Session for our \$37.4 million academic building that will replace the College's 1908 academic building. The 52,000 square foot facility will give students access to modern classrooms and labs, the latest innovations in teaching technology, and a comfortable and safe environment. Additionally, the new facility will reduce maintenance and energy costs for the campus. It will provide a better learning environment for students and a better teaching environment for faculty. In addition, LSCO is very appreciative for the increase in the annual HEF appropriation recommended by the THECB as it will allow for maintenance and light renovation to our aging facilities.

In an effort to maintain a safe environment, LSCO conducts criminal background and E-Verify checks on hired individuals and vendors who have permanent staffing on campus.

The College is requesting four (4) new exceptional items.

1. FORMULA FUNDING RATE INCREASE - Lamar State College Orange is requesting a formula funding rate increase from \$8.16 to \$9.16. LSCO is appreciative for the continued support from the Texas Legislature for formula funding. The Legislature's steadfast commitment to capital and operational funding to LSCO is paramount to providing low cost, high quality educational opportunities to our community. LSCO asked for an increase in our formula funding rate to reduce our reliance on tuition. The Legislature was able to fund our request over the last three sessions, bringing our instructional and administrative funding rate to \$8.16. The additional funding through the instructional and administrative formula would allow the State colleges to not only maintain the tuition reduction for our current students as we fight inflationary factors, but also position us to retain and attract qualified faculty with competitive wages. As we address the challenges of a retiring workforce accompanied by the market factor of supply and demand for qualified faculty, this support would strategically position LSCO to face the challenges with the Legislature's support.
2. INDUSTRIAL TRAINING ACADEMY BUILDING - Lamar State College Orange is requesting \$10,000,000 for funding to support the expansion of post-secondary

**Administrator's Statement**

---

**787 Lamar State College - Orange**

---

technical program offerings at the existing Lumberton facility. Expanding to develop a technical and workforce training center (Industrial Training Academy) in this location is essential to meet the workforce training needs of the community that is reported to be growing faster than 82% of similarly sized cities. The approximate 3,000 square foot site is located in the heart of Lumberton and currently provides two flexible classrooms that are currently delivering instruction in academic transfer courses as well as business and management, teacher preparation, and criminal justice courses. Adjacent land provides an opportunity for the development of a technical and workforce training center that will focus on high-wage, high-demand occupations for the immediate area in Hardin County.

3. TECHNICAL PROGRAM SUPPORT - Lamar State College Orange is requesting \$1,500,000 (\$750,000 per year) for program funding to support the development of technical training programs in the College's newest site, Livingston, Texas. Located in a very rural area of Polk County and East Texas with unreliable access to internet services, LSCO will provide access to individuals seeking post-secondary educational opportunities who would otherwise be forced to commute more than 45 miles via single-lane country roads that are regularly subject to closure and detours created by construction repairs, accidents, and flooding. Labor market data reveals that a focus on postsecondary training in nursing and healthcare services, fabrication and manufacturing, criminal justice and public service industries will prepare Polk County residents for employment in high-wage and high-demand careers. Given that research reflects more than 60% of alumni from two-year Colleges remain in the geographical area and contribute an average of \$81,000 more to local economies than the average high school graduate without college credits, investing in relevant and strategic technical program development will create very meaningful economic infusions in the rural and remote Livingston area that has a 16.4% poverty level compared with the 14% statewide level.

4. TECHNICAL ARTS TRAINING CENTER - Lamar State College Orange is requesting debt service of \$8,597,173 (\$4,298,586 per year) on a \$50,000,000 Capital Construction Assistance Project (CCAP) for the development of a Technical Arts Training Center in Orange County. The targeted occupations include carpenters, electricians, plumbers, HVAC technicians, and welders. Career pathways of the training center will focus on these high-wage, high-demand occupations for residents of Orange County and the surrounding areas. The center will house classrooms, faculty offices, and open laboratories fitted with state-of-the art equipment recommended by industry partners that will provide students with relevant training opportunities.

**STRATEGY DESCRIPTION AND JUSTIFICATION:**

The Instruction and Operations Formula provides funding for faculty salaries, departmental operating expense, library, instructional administration, student services and institutional support. The funds are distributed on a proportionate contact hour basis. The rate per proportional contact hour is established by the Legislature each biennium.

**EXTERNAL/INTERNAL FACTORS IMPACTING STRATEGY:**

(1) - Formula funded strategies are not requested in 2026-27 because amounts are not determined by institutions.

**STRATEGY DESCRIPTION AND JUSTIFICATION:**

The Infrastructure Support formula distributes funding associated with plant-related formulas and utilities. This formula is driven by the predicted square feet for universities' educational and general activities produced by the Coordinating Board Space Projection Model. The portion of the formula related to utilities is adjusted to reflect differences in unit costs for purchased utilities, including electricity, natural gas, water and wastewater, and thermal energy.

**STRATEGY DESCRIPTION AND JUSTIFICATION:**

The mission of this non-formula support item is to expand existing Health Professions programs and course offerings at Lamar State College Orange meeting the needs of the local health care community while creating high wage/high demand career prospects for our students. Current programs offered through LSCO’s Health Professions department are: Medical Assisting; Dental Assisting; Emergency Medical Services; Pharmacy Technology; Transition Registered Nurse; and Vocational Nursing.

**EXTERNAL/INTERNAL FACTORS IMPACTING STRATEGY:**

**STRATEGY DESCRIPTION AND JUSTIFICATION:**

The mission of the Maritime – Able Bodied Seaman program is to serve the needs of the Maritime industry operating within the Sabine-Neches Waterway and adjacent offshore waters. The Sabine-Neches Waterway is the nation’s fourth largest waterway and plays a critical role in transporting petrochemical and military resources. The program provides training for individuals seeking entry level and intermediate level employment in a high wage/high demand, local opportunity in the Maritime industry. The program is also a vital resource in Southeast Texas for professional development opportunities for current employees of local Maritime business and industry .

**STRATEGY DESCRIPTION AND JUSTIFICATION:**

Non-formula support item funding is used to supplement faculty salaries and other institutional operating costs for various vocational and technical training programs. This non-formula support item has assisted the institution in providing needed funding so the College can deliver necessary instruction, purchase equipment and support the needs of the new programs. A reduction in these funds will result in the reduction of class offerings, instructional equipment purchases, professional development for faculty, and scholarship aid to students.

1	General Revenue Fund	10,000,000	0
<b>TOTAL, METHOD OF FINANCING</b>		<b>\$10,000,000</b>	<b>\$0</b>

**DESCRIPTION / JUSTIFICATION:**

Lamar State College Orange is requesting \$10,000,000 for funding to support the expansion of post-secondary technical program offerings at the existing Lumberton facility. Expanding to develop a technical and workforce training center (Industrial Training Academy) in this location is essential to meet the workforce training needs of the community that is reported to be growing faster than 82% of similarly sized cities. The approximate 3,000 square foot site is located in the heart of Lumberton and currently provides two flexible classrooms that are currently delivering instruction in academic transfer courses as well as business and management, teacher preparation, and criminal justice courses. Adjacent land provides an opportunity for the development of a technical and workforce training center that will focus on high-wage, high-demand occupations for the immediate area in Hardin County.

**EXTERNAL/INTERNAL FACTORS:**

**DESCRIPTION / JUSTIFICATION:**

Lamar State College Orange is requesting \$1,500,000 (\$750,000 per year) for program funding to support the development of technical training programs in the College's newest site, Livingston, Texas. Located in a very rural area of Polk County and East Texas with unreliable access to internet services, LSCO will provide access to individuals seeking post-secondary educational opportunities who would otherwise be forced to commute more than 45 miles via single-lane country roads that are regularly subject to closure and detours created by construction repairs, accidents, and flooding. Labor market data reveals that a focus on postsecondary training in nursing and healthcare services, fabrication and manufacturing, criminal justice and public service industries will prepare Polk County residents for employment in high-wage and high-demand careers. Given that research reflects more than 60% of alumni from two-year Colleges remain in the geographical area and contribute an average of \$81,000 more to local economies than the average high school graduate without college credits, investing in relevant and strategic technical program development will create very meaningful economic infusions in the rural and remote Livingston area that has a 16.4% poverty level compared with the 14% statewide level.

**DESCRIPTION / JUSTIFICATION:**

Lamar State College Orange is requesting debt service of \$8,597,172 (\$4,298,586 per year) on a \$50,000,000 Capital Construction Assistance Project (CCAP) for the development of a Technical Arts Training Center in Orange County. The targeted occupations include carpenters, electricians, plumbers, HVAC technicians, and welders. Career pathways of the training center will focus on these high-wage, high-demand occupations for residents of Orange County and the surrounding areas. The center will house classrooms, faculty offices, and open laboratories fitted with state-of-the art equipment recommended by industry partners that will provide students with relevant training opportunities.

**B. Assessment of Attainment of HUB Procurement Goals**

**Attainment:**

Agency was close to reaching two of the applicable statewide HUB goals in 2022.

Agency was close to reaching one of the applicable statewide HUB goals in 2023.

**Applicability:**

Heavy Construction was not applicable to this agency's operations in 2022 and 2023. Professional Services was not applicable to this agency's operations in 2022.

**Factors Affecting Attainment:**

Lamar State College Orange has a limited number of service and professional certified HUB vendors in our region. Unable to expand on other factors since the HUB Coordinator started in FY24 and limited information is available to complete the answer.

**C. Good-Faith Efforts to Increase HUB Participation**

**Outreach Efforts and Mentor-Protégé Programs:**

In both FY 2022 and FY 2023, LSCO conducted outreach efforts in order to increase the participation with HUB vendors by participating in the Senator Royce West Spot Bid Fairs or by attending the local Golden Triangle Minority Business Council Forums.

Lamar State College Orange did not have a mentor-protégé program during this period.

**6.A. Historically Underutilized Business Supporting Schedule**  
89th Regular Session, Agency Submission, Version 1  
Automated Budget and Evaluation System of Texas (ABEST)

Date: **10/18/2024**

Time: **3:52:42PM**

---

Agency Code: **787** Agency: **Lamar State College - Orange**

**HUB Program Staffing:**

Director of Purchasing and Contracts served as the HUB Coordinator for LSCO. The HUB Coordinator met with HUB vendors, completed HUB reporting, and participated in the statewide and regional HUB Expos.

**Current and Future Good-Faith Efforts:**

The agency made good faith efforts when issuing formal solicitations on ESBD.

Agency personnel attended and presented at forums, as well as local HUB Expos.

Agency personnel works with internal departments on utilizing HUB vendors whenever possible.

**Allied Health Programs**

<b>(1) Year Non-Formula Support Item First Funded:</b>	2016
Year Non-Formula Support Item Established:	2016
Original Appropriation:	\$577,000

**(2) Mission:**

The mission of this non-formula support item is to expand access to students in rural areas of Southeast Texas to LSCO's Health Professions programs. The programs are built to meet the needs of the local health care community while creating high wage/high demand career prospects for our students. Current programs offered through LSCO's Health Professions department are: Medical Assisting; Dental Assisting; Emergency Medical Services; Pharmacy Technology; Transition Registered Nurse; and Vocational Nursing.

**(3) (a) Major Accomplishments to Date:**

LSCO has added short certificates and degrees within programs to allow students the opportunity to stack credentials that lead to high wage and high demand jobs. An AAS in Pharmacy Technology Management has been created to train pharmacy techs to acquire entrepreneurial skills that will assist them in their career endeavors and has graduated its first cohort in 2023-2024. In fall 2023, the program received a two-year extension of its accreditation and increased enrollment 18% in spring 2024.

The Medical Assisting program is a dual credit option for students interested in pursuing a healthcare major that affords students three separate healthcare licensing opportunities. It increased enrollment 23% from spring 2023 to spring 2024.

The Emergency Medical Services Program incorporates the Emergency Medical Technician and Intermediate Emergency Medical Technician certifications. EMT enrollment increased 35% between spring 2023 and spring 2024.

With the addition of a Dental Assisting Associate of Applied Science degree, the Dental Assisting program's enrollment grew 22% between the fall 2022 and fall 2023 semester.

The Texas Board of Nursing has granted LSCO approval to add an associate degree Nursing (standalone nursing) program and a Dual Credit Vocational Nursing program to be launched during the 2024-2025 academic year. During 2023, LSCO's Registered Nursing program licensure pass rates of 90.91% exceeded the national average pass rates of 88.6%.

**(3) (b) Major Accomplishments Expected During the Next 2 Years:**

---

787 Lamar State College - Orange

---

LSCO is submitting a proposal to the Texas Board of Nursing for permission to create a dual credit Vocational Nursing program at the TSUS Polk County Center in Livingston, Texas to provide access to nursing education in the more rural areas of East Texas.

The Dental Assisting program will seek accreditation through the Commission on Dental Accreditation. Students will pursue the national certification with the Dental Assisting National Board.

During the 2024-2025 academic year, LSCO will expand its Emergency Medical Services program to include a Paramedic certificate and Paramedic Associate of Applied Science. This will provide a pipeline of trained and educated first responders to a profession that experienced 50% of the workforce resigning during the height of the COVID-19 pandemic.

The Dental Assisting Program's expansion of awards with a new short certificate and the Associate of Applied Science degree will allow for dual credit enrollment and stackable credentials.

LSCO will be seeking to recruit and hire four highly qualified faculty for the Associate Degree Nursing program launch.

**(4) Funding Source Prior to Receiving Non-Formula Support Funding:**

None

**(5) Formula Funding:**

Students enrolled will qualify for formula funding.

**(6) Category:**

Instructional Support

**(7) Transitional Funding:**

N

**(8) Non-General Revenue Sources of Funding:**

None

**(9) Impact of Not Funding:**

New course and program development will not be possible without funding of this non-formula support. Faculty, equipment, and supplies are needed to support each major plan noted for the next two years. Restricted funding will adversely impact LSCO's access to high-fidelity simulation equipment that provides high quality alternative training opportunities in nursing, dental assisting, and EMT programs during this time of limited clinical access.

**(10) Non-Formula Support Needed on Permanent Basis/Discontinuu**

No

---

787 Lamar State College - Orange

---

**(11) Non-Formula Support Associated with Time Frame:**

N/A

**(12) Benchmarks:**

When programs generate formula funding to sufficiently cover program costs.

**(13) Performance Reviews:**

A local needs assessment completed in Spring 2024 confirmed the ongoing need for all health care professionals in Southeast Texas, including nurses, EMTs, paramedics, pharmacy technicians, and medical assistants. Health Care occupations continue to be the fastest growing sector for the Southeast Texas workforce development area and Health Care and Social Assistance is currently predicted to be the sector with more growth in the future.

Faculty salaries and program expenses, along with enrollment and employment data from the comprehensive local needs assessment, were included in the overall programmatic analysis. Prominent findings were the faculty needs: Nursing programs (both vocational and registered) have a dire need to hire at least four faculty for the program's expansion and the implementation of the standalone RN program (the associate's degree nursing). Additionally, the Paramedic Program needs an additional faculty member to lead the program as well as a medical director to oversee the program. The needed faculty roles can be considered with the additional funding.

Both the dental assisting and paramedic accreditation processes will cost around \$10,000 each. This expenditure can be considered with the additional funding.

**Industrial Training Academy Building**

**(1) Year Non-Formula Support Item First Funded:** 2026  
Year Non-Formula Support Item Established: 2026  
Original Appropriation: \$10,000,000

**(2) Mission:**

To develop an Industrial Training Academy that will train students to become highly-skilled professionals in a real-world atmosphere. There are currently more than 70 manufacturing establishments in the area that will benefit from an expanded Industrial Training Academy. The new LSCO Industrial Training Academy programs will offer coursework in process operations, instrumentation, environmental, Occupational Safety and Health Administration (OSHA), basic electrical, and maintenance. Each of the programs will provide students with the chance to complete internship training rotations while receiving hands-on experience within the industry.

**(3) (a) Major Accomplishments to Date:**

Lamar State College Orange has been selected as the educational partner to serve the Golden Triangle Chapter of the Federation of Advanced Manufacturing Education (FAME) through its recently developed and approved electromechanical technology program. Students who are chosen to participate in the FAME program earn an AAS in Electromechanical Technology while simultaneously completing a 2-year, paid internship.

**(3) (b) Major Accomplishments Expected During the Next 2 Years:**

Plan for construction of Industrial Training Academy building to house classrooms, faculty offices, and laboratories installed with top-of-the line equipment trainers to provide students with exposure to acquire and apply the knowledge, skills, and hands-on experience needed to be successful industrial technology professionals. The programs would begin being developed and equipment would begin being purchased.

**(4) Funding Source Prior to Receiving Non-Formula Support Funding:**

None

**(5) Formula Funding:**

Students enrolled will qualify for formula funding.

**(6) Category:**

Instructional Support

**(7) Transitional Funding:**

---

---

787 Lamar State College - Orange

---

**Institutional Enhancement (Academic and Student Support)**

**(1) Year Non-Formula Support Item First Funded:** 2000  
Year Non-Formula Support Item Established: 2000  
Original Appropriation: \$1,099,987

**(2) Mission:**

Non-formula support item funding is used to supplement faculty salaries and other institutional operating costs for various vocational and technical training programs. This non-formula support item has assisted the institution in providing needed funding so the College can deliver necessary instruction, purchase equipment, and support the needs of the new programs. A reduction in these funds will result in the reduction of class offerings, instructional equipment purchases, professional development for faculty, and scholarship aid to students.

**(3) (a) Major Accomplishments to Date:**

The Institutional Enhancement appropriation is used to fund faculty salaries and support related instructional costs for classrooms. Due to expanding course offerings in Industrial Technology and Allied Health programs in recent years, these funds are critical to meet additional faculty salary demands. In addition, funds are used to purchase needed equipment.

**(3) (b) Major Accomplishments Expected During the Next 2 Years:**

The college relies upon Institutional Enhancement funding to adequately meet the instructional needs of the campus. These funds will enable the campus to achieve its mission and goals in FY 2026 and FY 2027.

**(4) Funding Source Prior to Receiving Non-Formula Support Funding:**

N/A

**(5) Formula Funding:**

None

**(6) Category:**

Institutional Enhancement

**(7) Transitional Funding:**

N

**(8) Non-General Revenue Sources of Funding:**

None

---

787 Lamar State College - Orange

---

**(9) Impact of Not Funding:**

Failure to fund this request will severely restrict the ability of Lamar State College Orange to maintain operations and to respond to unique opportunities for expanding educational opportunities. Faculty salaries must be funded as a key component of program operations. It will impair the campus efforts to keep abreast of current technology and implement new programs. It would reduce available financial aid and have a negative impact on student recruitment and retention.

**(10) Non-Formula Support Needed on Permanent Basis/Discontinuu**

Yes

**(11) Non-Formula Support Associated with Time Frame:**

N/A

**(12) Benchmarks:**

N/A

**(13) Performance Reviews:**

The Institutional Enhancement appropriation is used to fund faculty salaries and support related instructional costs for classrooms. Due to expanding course offerings and expanding our programs offered in recent years, these funds are critical to meet the additional faculty salary demands. In addition, funds are used to purchase needed equipment.

---

787 Lamar State College - Orange

---

**Maritime Program**

<b>(1) Year Non-Formula Support Item First Funded:</b>	2016
Year Non-Formula Support Item Established:	2016
Original Appropriation:	\$500,000

**(2) Mission:**

The mission of the Maritime – Able Bodied Seaman program is to serve the needs of the Maritime industry operating within the Sabine-Neches Waterway and adjacent offshore waters. The Sabine-Neches Waterway is the nation’s fourth largest waterway and plays a critical role in transporting petrochemical and military resources. The program provides training for individuals seeking entry level and intermediate level employment in a high wage/high demand, local opportunity in the Maritime industry. The program is also a vital resource in Southeast Texas for professional development opportunities for current employees of local Maritime business and industry.

**(3) (a) Major Accomplishments to Date:**

LSCO’s Maritime Technology Program expanded more than 31% between spring 2023 and spring 2024 semester with training to dual credit students in Beaumont ISD as well as traditional students through a partnership with Venture Global LNG pipeline in Jasper. The program is offered for both adult learners and dual credit students. Each certificate can be completed in one semester for campus students or one year (Fall and Spring semesters) for dual credit students.

A mobile training unit was constructed to provide relevant experiential learning opportunities to LSCO’s maritime students as well as process technology and welding students. LSCO created a logistics management program that combines the maritime curriculum with logistics curriculum and has a need for additional faculty to support the new program.

**(3) (b) Major Accomplishments Expected During the Next 2 Years:**

Expand the maritime program curriculum to include a focus on technologies that elevate operational efficiency, safety, environmental stewardship, and compliance with regulations. The shift toward more interconnected, automated, and data-centric maritime operations will create a need for updated and relevant training.

Continue and expand cross-training between maritime and supply chain logistics management to support the growing needs of an industry that has enormous growth potential through 2030.

**(4) Funding Source Prior to Receiving Non-Formula Support Funding:**

None

**(5) Formula Funding:**

Students enrolled will qualify for formula funding.

---

787 Lamar State College - Orange

---

**(6) Category:**

Instructional Support

**(7) Transitional Funding:**

N

**(8) Non-General Revenue Sources of Funding:**

None

**(9) Impact of Not Funding:**

Failure to fund this request will prohibit growth and eliminate program development progress made thus far by LSCO to meet the local demands of Maritime business and industry. Failure to fund will restrict the ability of LSCO to respond to emerging technologies and shifting careers in the maritime and supply chain industries .

**(10) Non-Formula Support Needed on Permanent Basis/Discontinuu**

No

**(11) Non-Formula Support Associated with Time Frame:**

N/A

**(12) Benchmarks:**

When program generates formula funding to sufficiently cover program costs.

**(13) Performance Reviews:**

The Maritime program is supported by the Southeast Texas Waterway Advisory Council and the Ports of Orange, Beaumont, and Port Arthur. Several local employers, including Cypress Bayou and Conrad Shipyard, guide the Maritime Program as members of the Advisory Committee. The US Coast Guard approved curriculum has been identified as a significant aspect of the program since students can earn credentials recognized by employers.

787 Lamar State College - Orange

---

**Technical Program Support**

**(1) Year Non-Formula Support Item First Funded:** 2024  
Year Non-Formula Support Item Established: 2024  
Original Appropriation: \$750,000

**(2) Mission:**

The mission is to support the development of technical training programs in the College's newest site, Livingston, Texas. Located in a very rural area of Polk County and East Texas with unreliable access to internet services, LSCO will provide access to individuals seeking post-secondary educational opportunities who would otherwise be forced to commute more than 45 miles via single-lane country roads that are regularly subject to closure and detours created by construction repairs, accidents, and flooding.

**(3) (a) Major Accomplishments to Date:**

The Livingston site was acquired in FY 2023 as a shared location between Lamar State College Orange, Lamar State College Port Arthur, and Lamar Institute of Technology. The colleges have recently hired two fulltime staff members, and there are several other open positions that will be filled in the near future.

**(3) (b) Major Accomplishments Expected During the Next 2 Years:**

The colleges expect to hire additional faculty and staff and begin offering courses in areas such as nursing, healthcare services, fabrication and manufacturing, criminal justice, and public service.

**(4) Funding Source Prior to Receiving Non-Formula Support Funding:**

None

**(5) Formula Funding:**

Students enrolled will qualify for formula funding.

**(6) Category:**

Instructional Support

**(7) Transitional Funding:**

N

**(8) Non-General Revenue Sources of Funding:**

None

---

**787 Lamar State College - Orange**

---

**(9) Impact of Not Funding:**

The college will not be able to serve the educational needs of Polk County and East Texas as needed in the Livingston area.

**(10) Non-Formula Support Needed on Permanent Basis/Discontinuu**

Yes

**(11) Non-Formula Support Associated with Time Frame:**

N/A

**(12) Benchmarks:**

N/A

**(13) Performance Reviews:**

Begin offering needed programs from the new Livingston location.

---
