

Texas Success Initiative (TSI) Assessment

Interpreting Your Score

Congratulations on taking the TSI Assessment!

The TSI Assessment measures your strengths and weaknesses in mathematics and statistics, reading and writing, and is an indicator of how ready you are to handle college-level courses. The results of the assessment, in conjunction with your academic background, goals and interests, are used by academic advisers and counselors to place you in the appropriate course that matches your skill level. The goal is to help you become ready for college-level course work.

TSI Assessment

Once you complete the TSI Assessment, you have immediate access to your individual score report, which give you details on your test results. Use the score report to understand your academic strengths and areas for improvement. Your advisor, counselor or faculty member will also use this score report to help make the best recommendations for the courses or interventions that meet your individual needs.

How Is My Test Scored?

The individual score report indicates your score in the mathematics, reading and writing portions of the TSI Assessment and the appropriate course level in which you will be placed.

Your scores on the TSI Assessment determine if you are ready to take college-level courses. If you are college ready, you may enroll in any related entry-level college course without having to take developmental courses or interventions. You are considered college ready if **at the very least** you receive the following scores:

College-Readiness Cut-Scores

Mathematics: a score ranging from 350 to 390 in the multiple-choice section

Reading: a score ranging from 351 to 390 in the multiple-choice section

Writing: a score of 5 in the essay section. You can also place in a college course if you receive a 4 on the essay and a score ranging from 363 to 390 on the multiple-choice section.

What if I Don't Meet the College-Readiness Cut-Score?

If your TSI mathematics, reading or writing test score is lower than the college-readiness cut-score for that subject, you may be placed in either a developmental course or an intervention to improve your skills and prepare for success in college-level courses. In addition to other factors, your placement is determined through the results you get in the TSI Diagnostic Test, which measures how well you know the subjects. Your institution may use additional factors such as your high school grade point average/ class ranking, other test scores and courses from your high school or college transcripts.

Can I Retake the Test?

If you are not satisfied with your score, you may retake the TSI Assessment at any time. However, before you attempt to retest, it is strongly recommended that you set aside time for additional study. It is very unlikely that your score will improve greatly without additional review and study. Check with the testing center at your college or university for information concerning retesting.

TSI Diagnostic Test

If your score in the TSI Assessment is lower than the college-readiness cut-score, you will be asked to take the TSI Diagnostic Test, which determines your areas of strengths and areas that need improvement in mathematics, reading and/or writing. Many students who are not college ready may be provided the TSI Diagnostic Test as described below, while others may be given a different version of a diagnostic test to ensure accurate information related to their skill set. The results in the diagnostic test help the adviser place you in the appropriate level of a developmental course.

TSI Diagnostic Score Report

Once you complete the TSI Diagnostic Test, you will receive a diagnostic score report. This report outlines the topics on which you were tested, along with the score and the criteria used to determine that score.

Proficiency Level and Score	What this means to you
Needs Improvement	Indicates that your performance needs to improve significantly in this area.
Limited Proficiency	Indicates that while you have some skill in this area there is room for improvement.
Proficient	Indicates that you have well-developed skills in this area.

How Is My Essay Scored?

The essays are electronically scored by a unique automated system that is specifically designed to score assessments. This system evaluates the meaning of text, not just grammatical correctness or spelling. Your essay is compared for similarities to a set of at least 500 other student essays that have been graded by two expert human readers. It is then placed in the same scoring category with the essays to which it is most similar.

Once you enter your essay into an onscreen textbox and submit it for scoring, the system automatically evaluates the essay and returns a score from 1 to 8 as well as a statement that indicates the criteria used to give you that score.
